

CASE STUDY:

LADLE VIBE® 88 LADLE INSTALLATION

EQUIPMENT

- Sliding tundish ladle 800 kg. capacity

PRODUCT

- LADLE VIBE® 88 was chosen because of easy sintering and no equipment was available to install castable

APPLICATION

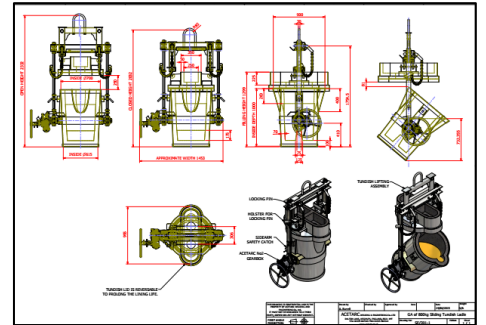

- Product was installed in grey iron treatment ladle. It took 450kg to finish the ladle lining.

INSTALLATION

- Installation was done according to the Allied procedures

RESULTS

- Ladle is still in service after 10 months. Customer very pleased with results
