

CASE STUDY:

TUFFLOOR® COLOR OPTIONS

EQUIPMENT

- Foundry shop floor where safety is a concern

PRODUCT

- TUFFLOOR®

APPLICATION

- Designated safety areas within foundry
- A product was needed that would eliminate the task of repainting flooring sections
- TUFFLOOR® was installed in red, yellow, and orange color

INSTALLATION

- TUFFLOOR® can be installed by using paddle or pan mixers
- Cement trucks can be used for large installations
- Pre-blending of coloring agent available

RESULTS

- Flooring is maintained by sweeping and does not need to be repainted
- Safety zones are easily identified
- Customer is happy with the results

Installation of yellow TUFFLOOR® section

Installation of red TUFFLOOR® section
