

Skamol VIP 12 and VIP 12 Clickboard

Skamol VIP 12 insulating board combines high strength with low thermal conductivity and is designed for a maximum service temperature of 1100°C (2010°F).

VIP 12 Stocked Product Code	Thickness	Width	Length
5300001626 (VIP 12)	1/2	12	24
5300001627 (Clickboard)	1/2	12	24

Vermiculite Board

Skamol V-1100 (475) is a high temperature, energy-saving and cost effective insulating board designed for a maximum service temperature of 1100°C (2010°F). This product is clean to handle and easy to install. Its composition allows for easy cutting and shaping using ordinary wood-working tools.

Skamol V-1100 (475) is suitable for hot-face or back up insulation of all refractory constructions. It will not decompose even when subjected to direct flame, but the maximum service temperature should be taken into consideration.

Thickness (inch)	Width (inch)	Length (inch)
1	12	36
1	24	36
1.5	12	36
1.5	24	36
2	12	36
2	24	36
2.5	24	36
3	12	36
3	24	36
4	24	36

*Lead time for Vermiculite board is approximately 12 weeks
