

HIGHLIGHTS

- A complete range of pumpable and shotcrete castable product compositions for customization
- Wide selection of Precast Refractory Shapes available

ALLIED FEATURES

- Global sales and service team
- Flexible worldwide manufacturing and supplier capabilities
- Custom Designs are available
- State of the art research capabilities

Precast shapes for stand pipes

Deflector Blocks

Area	Products	Type	Percentage	Installation Method
SIDE WALLS	BLAST KAST® 70 LC	Mullite	65.28	Shotcrete
	PUMPLITE 60	Silica / Alumina	43.3 / 40.7	Shotcrete, Pump
	BLAST KAST® 45 LC	Alumina / Silica	45.29 / 49.27	Shotcrete
Area	Products	Type	Percentage	Installation Method
BURNER WALLS &	BLAST KAST® 70 LC	Mullite	65.28	Shotcrete
	ALAKAST® 65-LC-P	Alumina	64.7	Vibration, Pump
Area	Products	Type	Percentage	Installation Method
WET SKID SYSTEM	ALAKAST® 68 LC-P	Alumina	68.51	Pump
	TUFF-FLO 65M	Mullite	64.3	Vibration, Pump
Area	Products	Type	Percentage	Installation Method
SLOT & DEFLECTOR BLOCK	TUFF-FLO 50	Alumina / Silica	50.2 / 44.4	Vibration, Pump
	TUFF-FLO 65M	Mullite	64.3	Vibration, Pump
	TUFFCRETE® 2800	Silica / Alumina	48.9 / 43.6	Vibration, Pump , Shotcrete
Area	Products	Type	Percentage	Installation Method
FLOOR	BLAST KAST® 45 LC	Alumina / Silica	45.29 / 49.27	Shotcrete
