

The Allied Difference: *Being There*

Hydrogen gas plants are used for upgrading hydrocarbons as well as the production of ammonia, ethylene, and other chemicals. Allied Mineral Products provides reliable thermally efficient refractories as well specialty refractory materials for direct hydrogen contact including transfer lines and exchanger chambers.

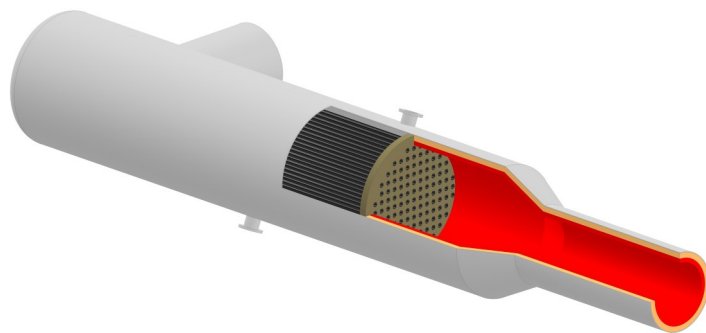

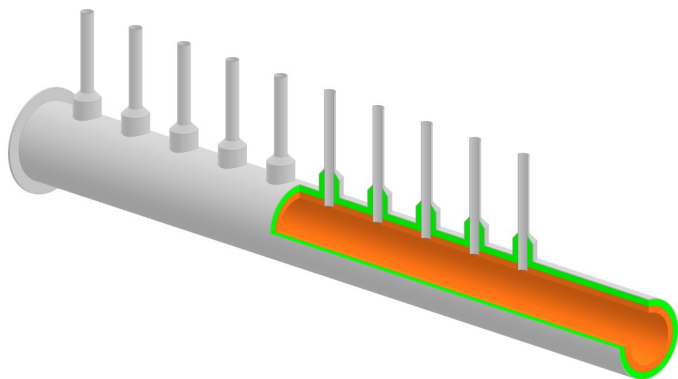

Backup Lining

PETROMAX® 550 LT
 PETROMAX® 2570
 PETROMAX® 3090

Hot Face Lining

PETROMAX® 25 NS*
 PETROMAX® 33100*
 PETROMAX® TUFF 98
 PETROMAX® CAST 34
 PETROMAX® CAST 34G
 PETROMAX® CAST 34 HR

*Can be considered for a single layer, cold wall design.
