

## BOTTOM POUR NOZZLES

ICP's bottom pour nozzles are engineered with exceptionally smooth surfaces and are free from pitting, ensuring clean metal flow and consistent performance. Manufactured using in-house tooling and design capabilities, these nozzles are precision-formed and require no post-processing or grinding, saving time and ensuring quality right out of the box.

**The ICP Advantage**

- Made in the USA
- ISO Certified
- Premium Materials
- Lighter Weight Technologies
- Custom Options
- Fast Delivery Times
- New Technologies

**Benefits of the products**

- Precision formed
- Dimensionally accurate with no grinding required
- Smooth surface / no pitting
- Excellent high-density mechanical strength
- Excellent thermal shock resistance

**Applications of the products**

- Designed for use in bottom pour ladles and automatic pouring furnaces

Global **Refractory** Solutions
