

## Alloy Furnace Taphole Clay

Product Family	Products	Description
ALPHA PASTE	ALPHA PASTE 1133 T ALPHA PASTE 1133 CC ALPHA PASTE 1133 E ALPHA PASTE 1133 ALPHA PASTE 702 W ALPHA PASTE 1133 T-F2 ALPHA PASTE 1133 T-FB	Anhydrous plugging paste for use in ferrosilicon alloy furnaces. Best suited for manufacturing inoculants. Industry best practices includes matching the chemistry of the plugging paste to the alloy being produced.
GREEN TAP PASTE	GREEN TAP PASTE	Unique plugging paste designed for submerged arc furnaces producing various ferro-alloys, such as Fe-Mn, Si-Mn, and Fe-Si. Shown to have less impact on the environment than similar plugging pastes.
