

## FILTERS

ICP's ceramic filters are trusted by metal casters worldwide for their reliability, durability, and superior filtration performance. Designed to withstand extreme temperatures, these filters effectively remove impurities from molten metal, enhancing casting quality and reducing defects. Their use is essential in both foundry and investment casting processes. As a leader in ceramic filtration technology, ICP offers a wide selection of filter shapes and sizes to meet the specific needs of various casting applications.

**The ICP Advantage**

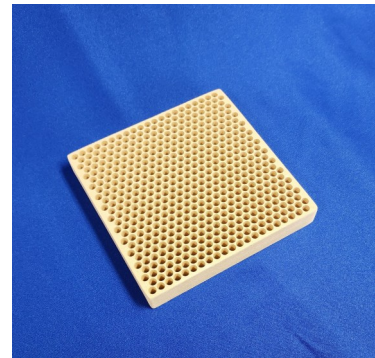

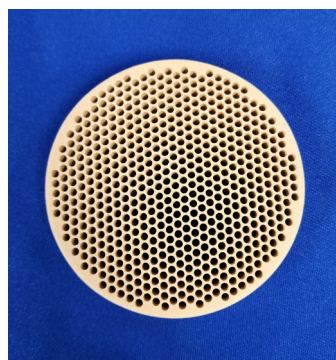

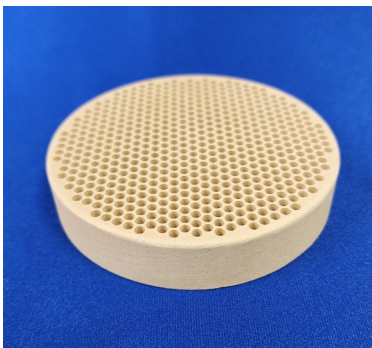

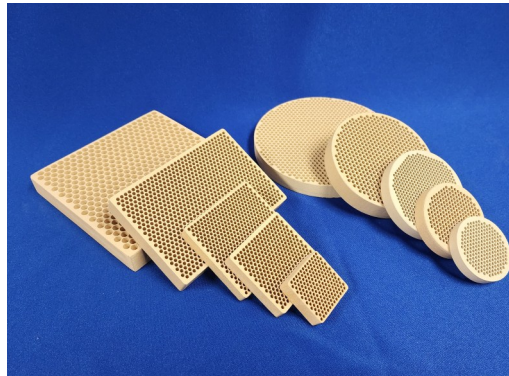

- Made in the USA
- ISO Certified
- Premium Materials
- Lighter Weight Technologies
- Custom Options
- Fast Delivery Times
- New Technologies

**Benefits of the products**

- Reduces defects
- Enhanced casting qualities
- Withstand extreme temperatures

**Applications of the products**

- Removes impurities from molten metal

Global **Refractory** Solutions
