

CASTABLES

PUMPABLE/SHOTCRETE

- FAST-TURN®
- MATRIPUMP
- MATRIPUMP FF
- NANO-PUMP®
- NANO-TEK®
- QUICK CAST®

VIBRATION CAST

- ALAMAX
- ARMORMAX®
- MATRICAST
- MATRIFLO
- MATRISIL
- NANO-CAST®
- WAM® AL

CHEMICALLY BONDED

- NANO-TEK®
- QUICK-FIRE®
- QUICK-FIRE® ONE

FAST FIRE

- MATRIPUMP FF
- NANO-TEK®
- QUICK-FIRE®
- QUICK-FIRE® ONE

GUNNING MIX

LOW CEMENT / CONVENTIONAL

- BETAGUN®
- MATRIGUN
- WAM® AL G

CHEMICALLY BONDED

- NANO-GUN®
- QUICK-FIRE®
- QUICK-FIRE® ONE
- REDIGUN

INSULATING

CASTABLE

- BETAMAX® LT
- INSULMIX®

GUNNING

- BETAMAX® LT G
- INSULMIX®

INDUSTRIAL FLOORING

- TUFFLOOR®
- TUFFLOOR® HT
- TUFFLOOR® HT ACX

PLASTICS

PHOS-BONDED

- MATRIPHOS
- RAM MAX®

AIR SET

- RAM MAX® AS

PATCHING

- DRI-CAST
- QUICK-FIRE® ONE PATCH
- QUICK-FIRE® PATCH
- RAM MAX®

MORTARS

PHOS BONDED

- ARMORSET

AIR SET

- BRIKSET

COATINGS

- MATRIKOTE 90AC
- MINRO-Z WASH Z77

DRY VIBRATABLES

- DRI-LITE®
- MATRIVIBE

ALUMINUM

PRODUCT INDEX

ALUMINUM PRODUCT FAMILIES

ALAMAX: Low cement, aluminum resistant castable	MATRICAST®: Conventional and low cement, vibration aluminum resistant castables	NANO-TEK®: No cement castables, may be shotcreted, pumped. Aluminum and non-aluminum contact
ARMORMAX®: Wire reinforced castable	MATRIFLO: Specialty line of aluminum resistant castables	NANO-PUMP®: No cement castables that can be pumped and cast. Aluminum and non-aluminum contact
ARMORSET: Phos-bonded mortar	MATRIGUN: Conventional, low cement gun mix	NANO-CAST®: No cement castables that can be vibration cast only. Aluminum and non-aluminum contact
BETAGUN®: Aluminum resistant, high-strength gun mix.	MATRIKOTE: High alumina, phos-bonded coating	NANO-GUN®: No cement gun mix. Aluminum and non-aluminum contact
BETAMAX® LT: Aluminum resistant insulating castables and gun mixes	MATRIPHOS: Phos-bonded plastic that contains non-wetting	QUICK-CAST®: Low cement, self-flow, pumped, and shotcreted.
BRIKSET: Wet and dry air-set mortar	MATRIPUMP: Low cement, pumpable castable	QUICK-FIRE®: Two-component, phos-bonded castable, gun mix, & patch materials
DRI-CAST: Insulating dry-vibratable materials	MATRIPUMP FF: Fast fire aluminum resistant castables	QUICK-FIRE® ONE: Single component, phos-bonded castable, gun mix, & patch materials
DRI-LITE®: Insulating dry-vibratable materials	MATRISIL: Fused silica based castable	RAM MAX®: Phos-bonded and air set plastics, plasters and patch materials
FAST-TURN: Fast fire, low cement castables	METAL-ROK: High wire containing precast shape	TUFFLOOR®: High-strength abrasion & thermal shock resistant flooring castable
INSULMIX®: Insulating castables & gun materials	MINRO-Z: Zircon-based, phos-bonded coating	WAM®: Patented line of silica free, aluminum resistant castables
		QUICK-CAST®: Low cement, self-flow and pumpable castable
