

A DIVISION OF ALLIED MINERAL PRODUCTS

INTERNAL CORES

ICP is dedicated to advancing ceramic injection molding technology for the efficient production of internal cores. Our diverse range of ceramic core compositions is approved for use in critical casting applications across the medical, industrial gas turbine (IGT), and aerospace industries. All ICP cores are fully leachable, and our robust thermal processing capabilities support high-volume production with reduced lead times.

The ICP Advantage

- Made in the USA
- ISO Certified
- Premium Materials
- Lighter Weight Technologies
- Custom Options
- Fast Delivery Times
- New Technologies

Benefits of the products

- Optimized materials
- Rapid qualification
- Impregnants/coatings available
- High-capacity throughput
- ISO certified/ITAR compliant
- Dimensional stability
- Enhanced leachability
- Shorter lead times

Applications of the products

- Creates internal passageways in castings
- Allows for complex geometric designs and intricate cavities
